

Spreader Bar for Forklifts

Forklift Spreader Bars - Proudly operating ever since nineteen seventy four, ELME Spreader AB is the largest independent spreader maker in the globe. They have been a dedicated producer of spreaders for various applications like for example the swap bodies, trailers and handling of containers.

Engineering is done in house by means of using all of the latest CAD systems and FEM tools. The ELME company now employees more than one hundred twenty five workers. Their spreaders are supplied to reach quayside, ship-to-shore cranes, stackers, straddle carriers, lift trucks and gantry across the world.

The product range of ELME comprise a lot of spreaders designed for a variety of container and trailer handling operations. Several of their inventory include: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers as well as a huge range of additional parts.

ELME manufacturing and production is performed in a highly automated purpose built factory. In 2008, they made more than 1150 spreaders by utilizing high quality parts in order to guarantee reliability and excellent standards while offering reasonable prices. Major features of ELME consist of design simplicity, market response and innovative modular spreader concept.
