

Meritor Part

Meritor Parts - Meritor is a premier international supplier that is proudly established on a one hundred year custom of quality and service. They specialize in several modules, integrated systems and components to original machine manufacturers and the aftermarket for the industrial and transportation trades.

Meritor prides itself in the company's unique energy and believes that this particular energy contributes to their competitive advantage in the international operations. The business values their customers and wishes to guarantee their success while anticipating their various needs. Meritor begins with a tradition which values diversity of people and their broad thought processes. Operating in 19 countries and hiring more than 11,200 people, Meritor promotes innovation and collaboration amongst a team of experienced experts.

Meritor strongly believes in only hiring future focused staff. These top-caliber individuals could rapidly get used to to changing surroundings and freely demonstrate the level of performance and commitment required to get results for the competitive market environment. The business empowers their teams to make sound business decisions in order to improve the overall success of the company. In return, Meritor provides all their employees various chances for professional and personal growth.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises axles, drivelines, suspension and braking systems intended for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is even responsible for supporting the needs of their international engineering personnel.

The Quality team at Meritor is a dynamic and customer-focused group who is committed to ensuring optimum progress at their aftermarket distribution facilities and production plant that are situated on 5 continents and in 19 nations.

The supplier development network is specifically located to be able to support new business development. Regional teams are supported by global quality systems, centralized specialties and initiatives in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making within each part of the company. The DFSS or likewise referred to as Design for Six Sigma ensures product reliability within each region. The team is even comprised of transactional Green Belts who use Six Sigma tools to business processes and apply lean methods.
